Dear Mr. Donk,

Re: Case No.: 13-21344-PRW

Your Chapter 13 Plan is in default due to your failure to maintain the payments which you proposed. The payments confirmed by the Court must be resumed immediately. In addition, all plan must be completed within five (5) years of their confirmation. We look for the plan payments to be brought current immediately. If you do not think that you can catch the payments up within 3 months, you should **contact your attorney** immediately to see if a modification of your plan is possible.

May I suggest that you consider having your payments made by wage deduction, if you are not already doing so. This is not considered a garnishment since it is a voluntary deduction made by you. The wage deduction program has been quite successful in Chapter 13.

**Let me emphasize that if you do not respond to this letter within ten (10) days, a motion to dismiss your case will follow.** If your case is dismissed, your creditors will be immediately notified of the dismissal. I hope you will take steps to see that this does not happen.

Very truly yours,  
George M. Reiber
